

3-Phase Variable Transformers

DRRTO/SpW/MoK/MoG 3-phase variable transformers

A range of three phase variable transformers providing up to 3 x 34A per phase on a 3 x 400V supply. The transformers are assembled on a supporting structure made from mounting plates, spacers and stud tie bars. All wiring is brought out to DIN rail terminals for ease of connection. Aluminium angle supports are available for mounting the assembly onto a back panel. These three phase units can be supplied with a straight spindle, or a bevel gear drive, or fully motorised, with cam-operated microswitches for adjusting end stop or intermediate signalling positions.

Input voltage: 3 x 400 V 50/60 Hz
 Output voltage: 0 - 400 V or 0 - 450 V
 Frequency range: 50 - 400 Hz
 Maximum ambient temperature: 40 °C
 Connection group: IO
 Standard setting times:
 AC motor 14 or 57 secs
 DC Motor 6 or 24 secs

Type	3 x 0 - 400 V		3 x 0 - 450 V		Dimensions					Weight [kg]
